## MOBILIZATION GOES ON

Russia May Refuse Germany's  
Demand to Cease Active  
War Preparations.

London, July 31.—Early this morning came news that the German cabinet, presided over by the emperor, sat at Potsdam until midnight and that a censorship over the telegraph lines is being imposed at Berlin.

This is interpreted here as implying preparation for German mobilization and a few hours will probably decide whether Europe is to be involved in universal warfare.

It is fully expected, both at London and Berlin, that the Russian foreign minister, Sergius Sazonoff, will reply to Germany's demand for an explanation to the effect that Russian mobilization has already been ordered and cannot be canceled.

In the event of Germany mobilizing it is expected that Premier Asquith will immediately ask parliament to sanction a large vote of credit as a necessary precaution.

## LAY ASIDE ALL DIFFERENCES

## Danger of War Unites All Factions in Great Britain.

London, July 31.—The remarkable sight was witnessed of Premier Asquith and Andrew Bonar Law, leaders of the opposition, who a few days ago were on terms of personal as well as political hostility, driving in the same car for a consultation with Sir Edward Grey, secretary for foreign affairs.

The prime minister announced in the house of commons that the amending of the bill to the home rule bill would be dropped for the present by the consent of all parties, including Irish Nationalists and the Ulster covenanter. Mr. Bonar Law said: "In view of the prime minister's pronouncement, that peace and war are in the balance, domestic differences must not prevent our presenting a united front in the council of the world."

The spectacle of a solid front in support of the government by all sections of the Irish members in the house of commons was even more remarkable than the reconciliation of Mr. Asquith and Bonar Law.

## PREPARING TO AID ENGLAND

## Canadian Militia Council Holds Emergency Meeting.

Ottawa, Ont., July 31.—Canada is making preparations to aid England with regiments should the mother country become involved in the European conflict. An emergency meeting of the Canadian militia council was held here in consequence of messages from the war office to consider what steps should be taken to protect, if necessary, Quebec, Montreal and other cities on the St. Lawrence river and St. John and other Bay of Fundy points from raiding cruisers.

The defenses of Halifax are considered sufficient, but the St. Lawrence and Bay of Fundy ports will be protected by mines should England become involved.

If England enters upon active hostilities Canada will offer aid at once. Canada sent 8,000 men to aid England in South Africa. It is estimated that Canada could raise, arm and embark 30,000 men inside of two months.

## AUSTRIANS SHELL BELGRADE

## Several Buildings in Servian Capital Are Damaged.

Belgrade, July 31.—The Austrians opened a heavy cannonade in their second attack on Belgrade. The guns of the Austrian monitors and the batteries of Semlin fired continually. Several buildings were damaged.

The Servian guns replied only occasionally. An Austrian gunboat was damaged.

An attempt by the Austrians to cross the river was repulsed with severe losses by heavy infantry and machine gun fire. There were no Servian losses.

The Austrians made several other attempts to cross the Rivers Save and Danube, but were everywhere driven back.

## Servians Claim Austrians Have Not Crossed the River.

London, July 31.—With the exception of official reports from Vienna given in the briefest form and thus far dealing with the bombardment of Belgrade and the capture of several Servian vessels on the Danube little reliable news has been received in London concerning the course of hostilities.

Numerous reports are current that battles are in progress at various points, including one report from Milan that a heavy engagement is raging south of Belgrade, but according to Servian official accounts all attempts on the part of the Austrians to cross the river have been repulsed and the reports of the occupation of Belgrade are considered premature.

PRICES TUMBLE ON  
NEW YORK EXCHANGE

## Foreign Holders of American Securities Selling.

New York, July 31.—The New York Stock exchange bore the brunt of tremendous worldwide liquidation of securities. It centered here because there is no other primary security market in the world which is not closed or under restriction.

Prices broke from 6 to 17 points under an overturn of 1,300,000 of stock, a larger part of which represents the "dumping" of foreign holders of American securities or the selling of foreign speculators.

It was the most drastic decline that has occurred since the domestic disturbance of 1907 and recalled the scenes of excitement that attended those days, but international bankers who have their fingers on the pulse of the situation expressed pride in the fact that the American market withstood so well the avalanche of selling. This has been actively in progress for nearly a week.

There was talk of following the lead of the foreign bourses and closing the exchange, but the sentiment against this appeared to be strong and no action was taken.

CALLS MEETING  
AT WHITE HOUSEPresident Sends for Railway  
Managers and Employees.

## FAIL TO MAKE PROGRESS

Mediators in Wage Dispute Between Engineers and Firemen and All Railways West of Chicago Report Their Efforts Fruitless for First Time in Thirty-one Industrial Controversies.

Chicago, July 31.—President Wilson alone can prevent a strike of the engineers and firemen on all railroads west of Chicago. Mediation by the federal board has failed. The president requested the general managers' committee and the representatives of the men to confer with him at the White House on Saturday.

His initiative was accepted by both sides and those who have been carrying on negotiations here for a settlement at intervals since last October have left for Washington. G. W. W. Hanger, a member of the board of mediation, remained in Chicago for possible developments, though none is expected.

Mr. Hanger asserted that after the board had met separately with the employers for three days the futility of a settlement by mediation was realized.

The commissioners continued to meet with the committees seven days more in the hope of finding some grounds on which the men would agree to arbitration. Hope, he said, was abandoned and the mediators notified President Wilson of the situation. He immediately invited the two factions to Washington to meet with him.

If the president cannot persuade the employers to arbitrate—the railroads appealed to the federal board—a strike will be called Wednesday or Thursday, it is said.

More than 55,000 firemen and engineers are involved directly and it is estimated 100,000 others, wipers and other railroad employees indirectly. About 97 per cent of the engine crews in a recent ballot voted to strike. Their leaders declared 75 per cent of them would obey the order to strike and that steam traffic west of Chicago would be paralyzed.

With the railroads facing the movement of the largest agricultural yield in years a strike at this time would be unusually unfortunate, Mr. Hanger asserted, and the mediators asked the president to intervene. He added that this was the only one of the thirty-one industrial disputes in which the board has exercised its good offices which was not settled. He said that the board's negotiations in this case were confidential and that no information would be given out unless it came from the president.

JAPAN'S ATTITUDE ONE

Tokio, July 31.—Japan's attitude on the European crisis may be described as one of watchful waiting. Should Great Britain become involved in the war and British rights and interests in Eastern Asia or India be menaced or attacked it is stated that Japan, in fulfillment of her alliance with Great Britain, will assist that country. However, if the war is limited to Europe, Japan probably will remain neutral.

PROGRESSIVES TO  
WAGE A BIG FIGHTMany Think There's No Hope of  
Going Back to G. O. P.

## EXPECT DEMOCRATIC AID.

Figure That Many Who Are Disgusted With Both Old Parties Will Join Their Ranks—Believe They Can't Hold Their Organization by Seeking an Amalgamation.

By ARTHUR W. DUNN.  
Washington, July 31.—[Special.]—No amalgamation with the Republicans under any consideration is the policy of those Progressives who have burned their bridges behind them and must stand or fall with the Progressive party. These Progressives recognize that they must fight it out; that there is no hope for them by uniting with the Republican party; that very few men who left the Republican party can come back as prodigal sons. They recognize that there is to be only one man who can come back and get what he wants, and he does not want anything until 1916.

This statement applies particularly to the Progressives in congress. Some of these men were elected as Republicans, such as the present Progressive leader in the house, Victor Murdock. He is running as a Progressive candidate for the senate in Kansas, and there is no place for him to run as a Progressive Republican, because Senator Bristow has pre-empted that field. Nearly every member of the party in the house is situated in much the same way. These men have got to fight to the last in order to maintain themselves politically. If the Progressive party goes out of existence they have got to start at the bottom and work up.

Will Not Come Back.  
It is the opinion of Murdock and quite a number of others prominent in the Progressive party that under no circumstances will a large proportion of the Progressives return to the Republican party. They do not believe that Roosevelt can lead them back. Furthermore, they look for a break in the Democratic party and expect a large following of Democrats to join the Progressives. That is their claim for independent action this fall. Or one thing they are sure, and that is that they cannot hold the party together by seeking an amalgamation with either of the old parties.

Wingo Stands Firm.  
"They laugh at me and poke fun at me about my 'jingoistic' attitude in regard to Mexico," said Congressman Wingo of Arkansas, "but it will prove that I am right and the only way in which we can handle the Mexican situation is to intervene." Neither Wingo nor any other man likes intervention, but like a great many other men, as would be shown if they expressed their honest convictions, he thinks we should either declare a policy of hands off or go in and pacify the country.

Figures and Facts.  
Years ago it was asserted that nobody had such an array of facts and figures in regard to commerce and commercial conditions as the late Senator Frye of Maine. He has a successor in Senator Burton of Ohio. That man is a walking encyclopedia of statistics. He must reveal in figures that relate to finance, commerce and kindred matters. His long drawn out speech on the river and harbor bill has shown that he has made a great study of all these subjects and has a wonderful retentive memory.

If Country Is Looking On.  
One afternoon when it was found impossible to get a quorum in the senate, when there had been several roll calls without developing the presence of forty-nine senators and some motions to adjourn had been voted down. Senator Gallinger, the oldest senator in point of service in the senate, remarked, "The country must be looking upon us with a great deal of surprise if the country is paying any attention at all to what is going on in Washington."

Senator Gallinger is of the opinion that congress should devote itself to passing the regular appropriation bills and adjourn without attempting to transact any further business. The constant lack of a quorum in the senate indicates that a majority of the senators feel the same way.

A Fair Play Proposition.  
Congressman Baker of California tried to get unanimous consent to have printed in the Congressional Record the statement of William J. Bryan on the subject of woman suffrage. "In the absence of Mr. Heflin of Alabama I will object," said Donovan of Connecticut. This was a recognition of the spirit of fair play, as Heflin is a leader of the opposition to woman suffrage on the floor of the house.

Keeps on Grinding.  
Notwithstanding the probability that the senate will not pass many more bills the house keeps grinding out legislation. Many important measures have recently been considered and passed, and provision has been made for consideration of quite a number of other bills. The probabilities are that these measures will die for want of consideration in the senate.

## Empties Both Barrels of Shotgun Into Lonely Cabin.

Duluth, July 31.—Headed by Deputy Sheriffs Broberg of Virginia and Evans of Duluth a posse composed of seventy-five farmers and homesteaders near Angola are scouring the country in search of Henry W. Wouri, who shot and killed his two children at his farmhouse.

It is said Wouri became insane and fired both barrels of a shotgun into his cabin, killing the children instantly. His wife escaped to the home of a neighbor. Wouri then took to the woods, screaming at the top of his voice.

The shooting took place in one of the most sparsely settled sections of St. Louis county.

They were of a party of four who had gone out in a boat. One of the men jumped from the boat, upsetting it.

Dr. Sargeant, who was a good swimmer, attempted to save Miss Reuter. When he gained the boat she fell back into the lake and it is supposed the two went down together.

Miss Reuter was twenty-three years old. Dr. Sargeant had only recently located in Carlos. His home was at Northfield. He was a graduate of Carleton college and of the college of medicine of the University of Minnesota, class of 1913.

## Every Nation Preparing to Fight.

## BRITISH NAVY READY

## Army Also Quietly but Swiftly Is Being Mobilized.

London, July 31.—While the news of the actual developments in the Austro-Servian war is unsatisfactory the general situation is one of growing menace. There is a vague report that Austria and Russia are still engaged in diplomatic negotiations through the medium of Berlin, diplomatic intercourse between these two countries having been suspended, but slender hopes are entertained of success in this direction.

Germany has addressed a note to Russia requiring an explanation of Russia's mobilization, and in the absence of a satisfactory reply it is feared Germany may take steps to mobilize also. It is understood that on the failure of his conference scheme Sir Edward Grey invited Germany to suggest some way out of the difficulty and all eyes are now turned to the German emperor as the man upon whom Europe's fate depends.

It is believed that if the German emperor desires peace will be maintained. The German view is that it behooves Great Britain and France to bring pressure upon Russia to allow the two principals to settle their differences without outside interference. In the meantime every nation in Europe is taking active steps to be prepared for any eventualities.

The Daily Telegraph's correspondent at Vienna, who is often the mouthpiece of the Austrian government, says that Sir Edward Grey's mediation proposal must not have the object of modifying the peace terms agreed upon by the belligerents.

## British Navy Is Ready.

The British navy is prepared for war at a moment's notice and the British army is quietly and swiftly preparing. The war office throws cold water on the word "mobilization" and has issued another carefully framed notice to the newspapers that only "the usual precautions" are being taken.

Nevertheless every step necessary to place the land forces on a war footing, except the summoning of the territorial arms, has been taken. All the territorial officers received orders to be prepared for call to duty.

Every officer and private of the regular establishment on leave has been recalled; the only reason for absence is serious illness. All the police on leave have likewise returned to duty, some of them to replace the soldiers guarding the military stores and stations who are needed elsewhere. The forces at Aldershot have been reinforced by numerous detachments from other points and a battalion of the Duke of Cornwall's regiment, which was about to embark for Hongkong, has been detained.

None but the admiralty, which is in constant touch through wireless at Whitehall, knows the whereabouts of the first fleet, but it is a safe presumption that the fleet is in a position close to the channel where it can strike the North sea in the event of hostilities.

The political forces of the country also are almost mobilized solidly, representing, in Premier Asquith's words, to the house of commons, "a united front."

## EXPORT TRADE PARALYZED

## Chicago Wheat Market Rises and Then Declines.

Chicago, July 31.—Contrary to all previous experience wheat prices in the final dealings here were being driven down, not up, by prospects that the war would spread. After a rise of 9 cents a bushel values shrunk as much as 3 cents in thirty minutes, largely on account of bold assertions that the bulk of the surplus crop of the United States, instead of being rushed to Europe because of widespread needs due to war, might be held in this country as a result of general war disrupting all ocean trade.

Leading exporters here did not hesitate to be quoted by name in declaring that export business in wheat from the United States had already been paralyzed.

Special to The Dispatch:— London, July 31.—The London stock exchange closed until further notice, also those at Liverpool, Glasgow, Edinburgh and Manchester.

### AMERICAN STOCK EXCHANGES CLOSE

Special to The Dispatch:— New York, July 31.—Facing the enormous task of trying to absorb the world's stock business, the New York stock exchange today closed indefinitely. Philadelphia, Boston, Pittsburgh and Chicago exchanges also closed.

### DISCOUNT RATE LIFTED BY BANK OF ENGLAND.

London, July 31.—The Bank of England raised its minimum rate of discount an entire point, making it 4 per cent.

Something like \$5,000,000 in gold went out, while France obtained practically the whole of the \$5,000,000 which arrived from South Africa Tuesday, and although \$15,000,000 is coming from New York to pay for securities sold recently this sum hardly can arrive in time to offset any further continental demands.

### PROGRESSIVES TO WAGE A BIG FIGHT

Many Think There's No Hope of Going Back to G. O. P.

#### EXPECT DEMOCRATIC AID.

Figure That Many Who Are Disgusted With Both Old Parties Will Join Their Ranks—Believe They Can't Hold Their Organization by Seeking an Amalgamation.

By ARTHUR W. DUNN. Washington, July 31.—[Special.]—No amalgamation with the Republicans under any consideration is the policy of those Progressives who have burned their bridges behind them and must stand or fall with the Progressive party. These Progressives recognize that they must fight it out; that there is no hope for them by uniting with the Republican party; that very few men who left the Republican party can come back as prodigal sons. They recognize that there is to be only one man who can come back and get what he wants, and he does not want anything until 1916.

This statement applies particularly to the Progressives in congress. Some of these men were elected as Republicans, such as the present Progressive leader in the house, Victor Murdock. He is running as a Progressive candidate for the senate in Kansas, and there is no place for him to run as a Progressive Republican, because Senator Bristow has pre-empted that field. Nearly every member of the party in the house is situated in much the same way. These men have got to fight to the last in order to maintain themselves politically. If the Progressive party goes out of existence they have got to start at the bottom and work up.

Will Not Come Back. It is the opinion of Murdock and quite a number of others prominent in the Progressive party that under no circumstances will a large proportion of the Progressives return to the Republican party. They do not believe that Roosevelt can lead them back. Furthermore, they look for a break in the Democratic party and expect a large following of Democrats to join the Progressives. That is their claim for independent action this fall. Of one thing they are sure, and that is that they cannot hold the party together by seeking an amalgamation with either of the old parties.

Wingo Stands Firm. "They laugh at me and poke fun at me about my 'linguistic' attitude in regard to Mexico," said Congressman Wingo of Arkansas, "but it will prove that I am right and the only way in which we can handle the Mexican situation is to intervene." Neither Wingo nor any other man likes intervention, but like a great many other men, as would be shown if they expressed their honest convictions, he thinks we should either declare a policy of hands off or go in and pacify the country.

Figures and Facts. Years ago it was asserted that nobody had such an array of facts and figures in regard to commerce and commercial conditions as the late Senator Frye of Maine. He has a successor in Senator Burton of Ohio. That man is a walking encyclopedia of statistics. He must revel in figures that relate to finance, commerce and kindred matters. His long drawn out speech on the river and harbor bill has shown that he has made a great study of all these subjects and has a wonderfully retentive memory.

If Country Is Looking On. One afternoon when it was found impossible to get a quorum in the senate, when there had been several roll calls without developing the presence of forty-nine senators and some motions to adjourn had been voted down, Senator Gallinger, the oldest senator in point of service in the senate, remarked, "The country must be looking upon us with a great deal of surprise if all that is going on in Washington."

Senator Gallinger is of the opinion that congress should devote itself to passing the regular appropriation bills and adjourn without attempting to transact any further business. The constant lack of a quorum in the senate indicates that a majority of the senators feel the same way.

A Fair Play Proposition. Congressman Raker of California tried to get unanimous consent to have printed in the Congressional Record the statement of William J. Bryan on the subject of woman suffrage. "In the absence of Mr. Heflin of Alabama I will object," said Donovan of Connecticut. This was a recognition of the spirit of fair play, as Heflin is a leader of the opposition to woman suffrage on the floor of the house.

Keeps on Grinding. Notwithstanding the probability that the senate will not pass many more bills the house keeps grinding out legislation. Many important measures have recently been considered and passed, and provision has been made for consideration of quite a number of other bills. The probabilities are that these measures will die for want of consideration in the senate.

### ALL EUROPE NOW AN ARMED CAMP

#### HERBERT L. HOCKIN.

Convicted Dynamiter Ill in Penitentiary.

#### IMPRISONED DYNAMITER ILL

Labor Leader Is Said to Be in Serious Condition.

Leavenworth, Kan., July 31.—Herbert S. Hockin of Detroit, Mich., the former labor leader, convicted in the dynamite conspiracy cases, is ill with fever in the hospital at the United States penitentiary. He has been in the hospital a week and it was said his condition is serious.

#### INSANE MAN KILLS HIS TWO CHILDREN

#### Empties Both Barrels of Shotgun Into Lonely Cabin.

Duluth, July 31.—Headed by Deputy Sheriff Broberg of Virginia and Evans of Duluth a posse composed of seventy-five farmers and homesteaders near Angola are scouring the country in search of Henry W. Wouri, who shot and killed his two children at his farmhouse.

It is said Wouri became insane and fired both barrels of a shotgun into his cabin, killing the children instantly. His wife escaped to the home of a neighbor. Wouri then took to the woods, screaming at the top of his voice.

The shooting took place in one of the most sparsely settled sections of St. Louis county.

#### PHYSICIAN AND GIRL DROWN

Doctor Loses His Life Trying to Save Companion.

Alexandria, Minn., July 31.—Dr. A. P. Sargeant and Miss Frances Reuter of Carlos, seven miles north of Alexandria, were drowned while bathing in Lake Carlos.

They were of a party of four who had gone out in a boat. One of the men jumped from the boat, upsetting it.

Dr. Sargeant, who was a good swimmer, attempted to save Miss Reuter. When he gained the boat she fell back into the lake and it is supposed the two went down together.

Miss Reuter was twenty-three years old. Dr. Sargeant had only recently located in Carlos. His home was at Northfield. He was a graduate of Carleton college and of the college of medicine of the University of Minnesota, class of 1913.

#### KILLS WIFE AND RAILROADER

Tells Neighbor to Send Children to Finland, Then Commits Suicide.

Ironwood, Mich., July 31.—Charles Tolonen, a Finnish farmer living about seven miles north of here, shot and killed his wife and Nestor Kinnunen, a railroader, of whom he was jealous.

He went to the home of Oscar Aili, a neighbor, told him to send his two children back to Finland to relatives after selling the Tolonen farm. Then he went into a field and killed himself.

#### FRIGHT CAUSES HIS DEATH

Thrown in Water When Gasoline Motor of Launch Explodes.

Pistakee Bay, Wis., July 31.—George Jacobsen of Chicago died of fright, according to the verdict of a coroner's jury, when a gasoline motor on a launch back fired and exploded. Of the several persons in the boat who were thrown in the water Jacobsen was the only one lost. An autopsy showed there was no water in his lungs.

### Every Nation Preparing to Fight.

#### BRITISH NAVY READY

Army Also Quietly but Swiftly Is Being Mobilized.

London, July 31.—While the news of the actual developments in the Austro-Servian war is unsatisfactory the general situation is one of growing menace. There is a vague report that Austria and Russia are still engaged in diplomatic negotiations through the medium of Berlin, diplomatic intercourse between these two countries having been suspended, but slender hopes are entertained of success in this direction.

Germany has addressed a note to Russia requiring an explanation of Russia's mobilization, and in the absence of a satisfactory reply it is feared Germany may take steps to mobilize also. It is understood that on the failure of his conference scheme Sir Edward Grey invited Germany to suggest some way out of the difficulty and all eyes are now turned to the German emperor as the man upon whom Europe's fate depends.

It is believed that if the German emperor desires peace will be maintained. The German view is that it behooves Great Britain and France to bring pressure upon Russia to allow the two principals to settle their differences without outside interference. In the meantime every nation in Europe is taking active steps to be prepared for any eventualities.

The Daily Telegraph's correspondent at Vienna, who is often the mouthpiece of the Austrian government, says that Sir Edward Grey's mediation proposal must not have the object of modifying the peace terms agreed upon by the belligerents.

#### British Navy Is Ready.

The British navy is prepared for war at a moment's notice and the British army is quietly and swiftly preparing. The war office throws cold water on the word "mobilization" and has issued another carefully framed notice to the newspapers that only "the usual precautions" are being taken.

Nevertheless every step necessary to place the land forces on a war footing, except the summoning of the territorial arms, has been taken. All the territorial officers received orders to be prepared for call to duty.

Every officer and private of the regular establishment on leave has been recalled; the only reason for absence is serious illness. All the police on leave have likewise returned to duty, some of them to replace the soldiers guarding the military stores and stations who are needed elsewhere. The forces at Aldershot have been reinforced by numerous detachments from other points and a battalion of the Duke of Cornwall's regiment, which was about to embark for Hongkong, has been detained.

None but the admiralty, which is in constant touch through wireless at Whitehall, knows the whereabouts of the first fleet, but it is a safe presumption that the fleet is in a position close to the channel where it can strike the North sea in the event of hostilities.

The political forces of the country also are almost mobilized solidly, representing in Premier Asquith's words to the house of commons, "a united front."

#### EXPORT TRADE PARALYZED

Chicago Wheat Market Rises and Then Declines.

Chicago, July 31.—Contrary to all previous experience wheat prices in the final dealings here were being driven down, not up, by prospects that the war would spread. After a rise of 9 cents a bushel values shrunk as much as 3 cents in thirty minutes, largely on account of bold assertions that the bulk of the surplus crop of the United States, instead of being rushed to Europe because of widespread needs due to war, might be held in this country as a result of general war disrupting all ocean trade.

Leading exporters here did not hesitate to be quoted by name in declaring that export business in wheat from the United States had already been paralyzed.

#### Fatal Fire on Seattle Dock.

Seattle, Wash., July 31.—One man is known to have been killed, one probably was injured fatally and seven others were injured, three of them seriously, in a fire which destroyed the Grand Trunk Pacific pier and damaged the Colman dock, large passenger wharves, causing a loss estimated at \$500,000.

## WIFE IN DULUTH, SPOUSE CRAZY HERE

Domestic Drama Unfolded When Officer Olson Takes up a Demented Man Last Night

### NORTON TALKS ON TRUSTS

Punctuates Rambling With Disquisitions on Chicken Incubators and John D. Rockefeller

Leaving Charlevoix, Michigan, with the idea of buying a chicken ranch near Duluth, Mrs. Rose Norton and baby preceded her husband, Vernon, arriving in Duluth Friday. Norton in the meantime was picked up Thursday night in Brainerd insane on the trust question and chicken incubators. He claims to be worth five million and is asking for a chance to fight John D. Rockefeller, and has also promised Sheriff Reid and family a trip to Europe.

From letters in Norton's effects it appears that his wife wrote him from Charlevoix, Mich., July 25, that she and the baby were on their way to Duluth, leaving Thursday for Petoskey on the G. R. D. and arriving in Duluth on the South Shore & Atlantic at 10:30 this Friday morning.

The letter breathes love and devotion and the baby is specially mentioned. Reference is made to the fact that the little woman had saved \$18 and that it would help them at Duluth.

Chief of Police S. W. Quinn immediately wired Chief Troyer at Duluth the state of affairs in Brainerd and Mrs. Norton will be informed of her husband's predicament.

The insane man is about 30 years old and seems rational enough except on the trust question and the incubators. He expressed himself as willing to set an incubator in Deputy Sheriff Claus A. Theorin's window and would pay \$50 an hour for the privilege. He continually harps on the theory that the big fellows are eating up the little ones in the trust war.

Norton was picked up by Officer Olson last night. He will be given an examination before Judge of Probate J. T. Sanborn and the court will decide what disposition to make of Norton.

## COUNTY CROPS, BUMPER YIELDS

Fine Display of Samples in the Windows of Security National Loan Co. on Laurel St.

### RYE RAISED ON ROBERTS FARM

Oats Look Good, Last Few Rains Helping Out all Cereals and Root Crops Wonderfully

"Crow Wing county is assured of bumper crops," said R. R. Livingston, a well known farmer and business man of this city. And in support of his assertion he showed samples on display in the windows of the Security National Loan Co., at 717 Laurel street.

There stood wheat raised four miles east of Deerwood which measured over five feet in height with its heads well filled out. It had not been effected by the hot weather and the recent rains had acted as a tonic in its growth, preventing too rapid maturing.

There was a sample of rye raised on what is known as the old Roberts farm southwest of town. The soil there has had no fertilizer for years. The rye was in fine shape.

Another display was oats from R. Livingston's farm. It stood five feet high and was well filled.

It is believed that all crops in Crow Wing county will prove up big yields, gladdening the heart of every tiller of the soil. The Pine River country is also booming, the last few rains helping that section wonderfully.

It may safely be said at this time that corn, rye, oats, wheat, potatoes and root crops will be bumper crops in Crow Wing county.

## COUNTY CROPS, BUMPER YIELDS

Fine Display of Samples in the Windows of Security National Loan Co. on Laurel St.

### RYE RAISED ON ROBERTS FARM

Oats Look Good, Last Few Rains Helping Out all Cereals and Root Crops Wonderfully

"Crow Wing county is assured of bumper crops," said R. R. Livingston, a well known farmer and business man of this city. And in support of his assertion he showed samples on display in the windows of the Security National Loan Co. at 717 Laurel street.

There stood wheat raised four miles east of Deerwood which measured over five feet in height with its heads well filled out. It had not been effected by the hot weather and the recent rains had acted as a tonic in its growth, preventing too rapid maturing.

There was a sample of rye raised on what is known as the old Roberts' farm southwest of town. The soil there has had no fertilizer for years. The rye was in fine shape.

Another display was from R. R. Livingston's farm. It stood five feet high and was well filled.

It is believed that all crops in Crow Wing county will prove up big yields, gladdening the heart of every tiller of the soil. The Pine River country is also booming, the last few rains helping that section wonderfully.

It may safely be said at this time that corn, rye, oats, wheat, potatoes and root crops will be bumper crops in Crow Wing county.

There is a beautiful love story embedded in "A Fool and His Money" that is strikingly original (which suggests farcical situations and humor for which Geo. H. Broadhurst, the author, is famous. The prices for this engagement will be arranged as follows: 25c, 35c, 50c, 75c and \$1.00. The date is Wednesday, August 5th.

it.

Edmund Schnirl objected to his assessment on the E 1/2 of the NW 1/4 Sec. 1, Twp. 136, Rge. 29 but it was no higher than the surrounding lands and was left at \$15 per acre real value.

P. Umhoefer stated that his land the E 1/2 of the SW 1/4 and the SW 1/4 of the NW 1/4 Sec. 23, Twp. 137, Rge. 29 was assessed higher than its true value, but as it was just the same as the surrounding lands viz: \$12 per acre, the board did not change it.

On motion the board adjourned until Tuesday, August 4th, 1914 at 10 o'clock a. m. for a day of hearing.

J. F. SMART, County Auditor.
